---

## Project Leaders

1. Identify a project co-leader (from your church or another).
2. Gather representatives from ministry zone churches (pastors, staff, or laity) to collaborate on a project that would hit all 5 components (gospel, prayer, follow-up, local need, >50 people).
3. Identify resources, permissions or training that may be needed to complete project (use planning guide and coordinate with Association)
4. Inform all ministry zone churches and invite them to participate in the event (information and registration on Association webpage).

## Sample Ideas

- Coordinate a community yard sale (any proceeds going to missions)
- Purchase 9-volt batteries and go door to door for smoke detectors, prayer, etc.
- Host a sports training event (ex. baseball or basketball clinic)
- Emergency Preparedness expo
- Car clinic (alt. free oil changes for single moms)
- Family Fun Day
- Day of Random Service (small teams go out – volunteer to cut grass for free, gas fill-up, etc.)
