

# June is Disaster Relief Month for the Walton County Baptist Association

Churches are encouraged to promote Disaster Relief during the month of June and to take up a special offering on Father's Day. Disaster Relief was very busy during last year's storm season and have already been busy this year ministering to the local community. We have even been in Holmes County doing work on houses damaged by tornados.

It is because of your generosity that our teams have been able to help in a time of need. Not only did you help people recover where they live, but you presented the gospel. By sending these teams to disaster areas you allow them to share the love of Jesus.

Please pray and seek God as to what you might give to help this ministry. The equipment is costly, both to maintain and replace. However, this ministry is too important to worry about cost...it's about the gospel. Let's give to this ministry that is taking the gospel all over Walton County and the nation.

Please call Bob Glass at 951-0916 if you would like someone to come and share with your church about Disaster Relief. We can come during June, or any other time that is convenient for you. And please consider becoming a trained volunteer and being a member of the WCBA Disaster Relief Team.

## **We need you!**

Envelopes are available at the WCBA office to use for the Father's Day Special Offering. They can also be used for any other Sunday (June or otherwise) that you set aside for a disaster relief special offering.
